Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I've had my Tracfone for almost a year and have never made a long distance call or talked in roam. I have bought this for emergencies, only. every time I use it now it costs around \$.23/min.. This is already higher than over seas long distance just to call next door. Why now would you want to raise my cost??? If any of you were using Tracfone @ \$.23/min. would you want your charges to go up??? Thanks for your consideration in not raising the cost.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Steve Payton
